

GUILDFORD DENTAL CENTRE

Welcome!

Welcome to our first Newsletter of 2025!

We are thrilled to share the latest developments in our mission to provide excellent dental services in our local area.

In this newsletter you can expect: Practice Updates, Team Social, New Dental Services

Family Dentistry

We are proud to offer dental solutions for patients of all ages, from the youngest to the oldest members of your family. 🦷

We love seeing generations of families walk through our doors, and it's our mission to provide personalised care to everyone.

Whether it's your child's first check-up, a teen's orthodontic needs, or restorative care for adults and seniors, our team is here to ensure healthy, beautiful smiles for all.

Guildford Dental*

Digital Dentistry

At our practice, we are committed to providing the best possible care by using the latest in digital technology. One key piece of equipment that sets us apart is the state-of-the-art iTero scanning machine! 🦷 ✨

The iTero scanner allows us to create highly accurate digital impressions of your teeth without the need for messy, uncomfortable molds. This advanced technology ensures a more comfortable, efficient, and precise experience for our patients. Whether you're considering Invisalign, restorative treatments, or cosmetic enhancements, the iTero scanner helps us plan and execute your treatment with exceptional accuracy.

✨ Christmas Party ✨

We visited an Escape room in town & went head to head!
The winning team were;
Derek, Valentine, Aradhana & WingHing
Here's to teamwork, & laughter.
We hope they enjoy bragging rights for the next 12 months!

Same Day Smile with Dental Implants

Same Day Smile uses dental implants to transform your smile, allowing you to leave the practice with a beautifully restored smile the very same day. Dental implants have transformed the lives of many of our patients, offering a modern and durable solution for replacing missing or damaged teeth.

You'll be able to relax and eat the things you enjoy, all with the absolute confidence that your teeth won't slip!

Benefits:

- Feels natural – All-on-4™ anchors teeth so securely, you'll soon forget they're not the ones they were born with
- Same day smile – Walk out of the dental surgery with a full set of fixed replacement teeth the same day you walked in!
- A lasting smile – For replacement teeth that are durable and extremely long lasting
- Simpler and quicker – Uses implants to anchor a full arch of replacement teeth
